

RESIDENTS BEING ASKED TO PARTICIPATE IN ONLINE SURVEY THAT WILL HELP WHEN DEALING WITH NATURAL HAZARDS

Has your home ever been flooded or have you experienced a prolonged power outage? Or have you been affected by any other type of natural disaster? Chippewa County residents can now learn more about and provide input on a comprehensive natural hazard mitigation plan for the county and its local municipalities. An online citizen questionnaire and interactive map:

<http://www.eup-planning.org/natural-hazards-mitigation-planning>

Through a grant, provided by the Federal Emergency Management Agency (FEMA), the EUP Regional Planning & Development Commission will work with county emergency management staff and municipal representatives to update the 2014 Chippewa County Natural Hazards Mitigation Plan. The plan is a documented evaluation of the hazards to which a community is susceptible and the extent to which these events will occur.

Background information about the Plan and planning process is available on the EUPRP&DC's website. Residents are being encouraged to participate with providing information that will help a study team better assess the nature, extent and probability of various hazards in Chippewa County. Contact Ellen Benoit toll free at 1-855-885-3690 for more information or a printed copy of the survey.
